Disclosure Form for CME Activities

As an accredited provider of continuing medical education for physicians, The Texas Heart Institute is committed to ensuring its educational activities are fair, balanced, independent, objective, evidence-based and support safe and effective patient care.

The ACCME Standards for Integrity and Independence require that we collect disclosure from anyone who has control of content of a CME activity. Please disclose **all financial relationships** that you have had in the past 24 months with ineligible companies. The ACCME defines an “ineligible company” as any entity whose primary business is producing, selling, re-selling, or distributing healthcare products used by or on patients.

1. An individual must disclose to the audience any financial relationship(s). Information disclosed will include the a) name of the individual; b) name of the ineligible company; and c) nature of the relationship the individual has with the Company.
2. An individual with no financial relationship(s) must declare such so that the audience can be informed that no financial relationship(s) exist.
3. Any individual who refuses to disclose financial relationships will not be allowed to serve on a planning committee, or as speaker or author of any of The Texas Heart Institute CME activity.
4. Any individual who is an owner(s)/employee(s) of ineligible companies will not be allowed to serve on a planning committee or as faculty of any The Texas Heart Institute CME activity.
5. The Texas Heart Institute requires that the content and format of a CME activity or its related materials promote improvements or quality in health care and not a specific proprietary business interest of an ineligible company.
6. All presentations are required to give a balanced view of therapeutic options. Use of generic names will contribute to this impartiality. If the CME educational material or content includes trade names, where available, trade names from several companies should be used, not just trade names from a single company.
